KANSAI NEROLAC

Kansai Nerolac is undisputed market leader in powder coatings in India. With our geographical presence and robust technology, we are able to cater any powder coating product across India. This makes us your ideal partners for all your powder coating needs.

We have strong presence in the entire industry viz. Appliance Industry (with over 80% MS), Electrical, Furniture, Auto & Auto ancillary Industry and other general industries.

OUR RANGE OF POWDER PRODUCTS

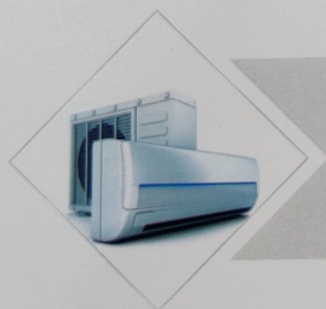

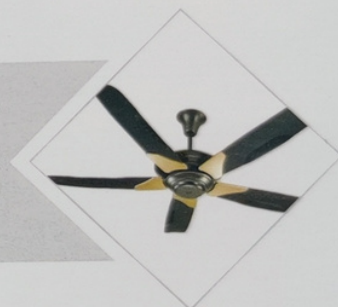

NEROCOAT Pure Epoxy:

Pure epoxy powders are suitable for various products for internal usage, both in terms of decorative effect & surface protection. They are the best for corrosion & chemical resistance. Typical Applications: Kitchen Cabinets, Laboratory & Hospital furniture and functional powder coatings like Rebar & Pipe coating.

NEROCOAT Epoxy Polyester:

Epoxy polyester powders are suitable for indoor applications, can be applied on metal substrates. They have better transfer efficiency, mechanical properties, corrosion resistance, flow & finish. Typical Applications: House hold Appliances, Furniture, light fittings etc.

NEROCOAT Pure Polyester:

Pure Polyester powders give excellent Exterior Durability / UV resistance along with superior colour & gloss retention. It can be used for components which could be subjected to outside exposure. Typical Applications: Air conditioner cabinets, Garden & Agriculture equipments, Auto components, DG Gensets, cycles etc.

NEROCOAT Polyurethane:

Polyurethane powders give excellent exterior durability / UV resistance along with superior colour and gloss retention just like polyester powders. However it has better chemical resistance than pure polyester powders.

OUR SPECIAL POWDER COATING PRODUCTS:

Kansai Nerolac has specialized range of Powder Coating Products to provide the right solution and cater varied market needs.

NEROCOAT Fast Cure Powder: Fast cure powders help to increase productivity by reducing powder curing cycle time 180°C/6 min instead of regular process cycle time of 180°C/10min.

NEROCOAT Low Bake Powder: Low bake powders contribute toward energy saving by reducing powder baking temperature 150°C/10 min instead of regular 180°C/10 min.

Nerocoat Super Durable Powder: Qualicoat approved super durable powders for architectural coatings with life up to 25 years.

Nerocoat Bonded Metallic Powder: This range of powder coating is used to obtain better aesthetic appearance.

Nerocoat Zn Rich Primer: Zn rich primer are suitable for your high corrosion resistance requirements of the 2 coat system for special projects.

Nerocoat Low DFT powder: This range of powder coating gives similar performance at a lower DFT (35 -45 Micron only) against regular 50 -60 micron DFT.

Nerocoat Fusion Bonded Epoxy Powder: Fusion bonded epoxy powder are functional powders for protection of Rebar, Pipe & Valve fittings.

Nerocoat Heat Resistance Powders: Heat resistance powders designed to withstand temperature 250°C, 400°C & 600°C. Suitable for applications on Geysers, Engine box, Silencers and Gas stove etc.

Nerocoat wood coating powders: This range of Powder coating give wood type finish by vacuum 3D sublimation technology and is available in pure polyester and polyurethane chemistry.

KANSAI NEROLAC

A legacy of reliability

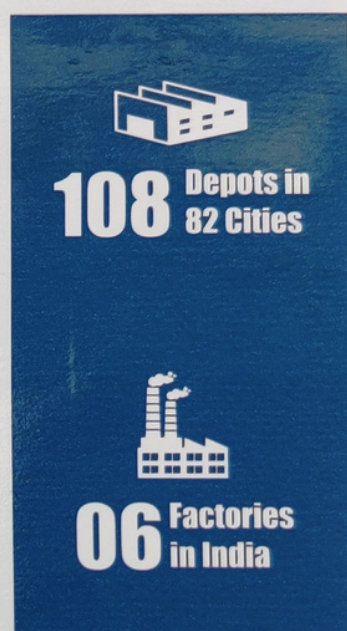

Formed in 1920, Nerolac Paints has always symbolized excellence. Today, as a subsidiary of Kansai paints Co. Japan, we have grown to be the one of India's largest coating company. Kansai Paint Japan is one of the leading companies in the world. The company has sound technical expertise and R&D Facilities with technology backup to understand and to provide solutions meeting customer requirements at all times. Going beyond product supply, we engage ourselves with your project at a deeper level to thoroughly

understand your needs and create long lasting and most cost effective solutions. We are your ideal partners for protecting your valuable assets.

CUSTOMIZED SOLUTION

Designed around you

Providing customized solutions around your needs is the hallmark of Kansai Nerolac. We strive to ensure cost effective solutions to all your corrosion problems and ensure optimum long term protection.
